

## - From the Directors -

Another Chapter I Maintenance Day is now in the record books and what a great time it was. I can still hear the “friendly” discussions and the clank of tools. I can smell the tires, the oil, the grease and solvents. I can still feel the dirt and grime on my fingers . . seriously, I still have grime way up under my fingernails!! Just a gentle reminder of the experience we enjoyed.

Thank you Darrel & Laurie for opening up your home once again. A Big Thank You to Laurie and her entourage for a fantastic Breakfast Bar!! I understand that was the favorite part of the day for some. And never ending thanks to Chapter I !! Your support and participation continue to amaze both Cathy & I. Last, but certainly not least is a thanks to our Denver area visitors. It was nice to have you join us.

I'd like everyone to welcome our first time visitors and new friends Scott & Jeannette, Roy, and Charlie. Hope to see you all again soon at upcoming events.

Here's a couple of reminders while I have your attention. Please get registered for the Region F Convention soon. The pre-registration discounts end on Saturday May 10th. Forms may be found later in this newsletter or on the Region website.

I also need a headcount of Chapter I members that are going up to Chapter G's Father's Day Pig Roast. Please get that information to me by May 15th,

Until next time, ride safe and often.

## RIDER EDUCATION

# SKILLS SHARP PART II

About 3 weeks ago I took my motorcycle to work on a nice Friday morning. The temperature was about 45 degrees and was expecting to get warmer by the afternoon. The night before I took the motorcycle out for a test drive around the neighborhood to get used to the feel of the motorcycle. Everything checked out alright. I felt comfortable. After I got into work, one of my co-workers said, "How was the ride in this morning"? I didn't say anything right away...just a pause. Then he rephrased his question, "I bet that you had a safe and cautious ride in this morning...being the first time out." I said, "Yes I did."

Now this young man also rides a motorcycle. He has a good head on his shoulders...but he also strives to be safe. You don't have to be a Gold Wing rider to know to be safe and cautious on your first ride of the season.

*"His injuries are motorcycle related. He accidentally bumped into his wife's motorcycle, so she gave him a beating."*

Thanks for sharing Dean !  
Hope to see you & Joann back soon.

## From the Doo Drop Inn!

Just wanted to thank everyone for helping with another successful maintenance day! I would like to thank Myra, Nancy L, Kathy W, Darlene, Didi, Sandie, Marilyn, Tiffany, and Bonnie for help with Breakfast. We have a great turn out and the weather was beautiful! Thanks for the visit from the District and Region staff too! I believe they took off with some of our 50/50 money again! Great to see them!

The guys got a lot done on the bikes! They changed tires, fork seals, fluids, brakes, windshields, and much more! All in all it was a great! I do believe we have our next goofy taker! But that's just me! What do you think?

See ya soon! Ride safe!

## **FREEDOM BELLS**

### **The Mystical Story of — The Source's Freedom Bells.**

Have you ever wished you could get rid of those nasty road "surprises" that turn your ride in the wind to a trip where Everything goes wrong?

As we all know, life has many mysteries that have no apparent solutions. One of these is Evil Road Spirits. That are the little gremlins that live on your bike. They love to ride. They're also responsible for most of your bike's problems. Sometimes your turn signals refuse to work, or the battery goes dead, the clutch needs adjustment, or any of several hundred things go wrong. These problems are caused by Evil Road Spirits.

Road Spirits can't live in the presence of a bell. They get trapped in the hollow of the bell. Among other things, their hearing is supersensitive. The constant ringing of the bell and the confined space drives them insane. They lose their grip and eventually fall to the roadway. (Have you ever wondered how potholes are formed?) The bell has served its purpose.

If you have picked up a bell of your own, the magic will work. But if your bell was given to you, the power has been doubled, and you know that somewhere you have a special friend helping to look after you.

So, if you have a friend that doesn't have a bell, why not be the person to give them one? It's a nice feeling for the recipient to know you personally cared. The bell, plus a good Preventative maintenance program by the bike's owner, will eliminate the Evil Road Spirits.

## GOOFY

*Has a new home this month.*

*Goofy was most recently residing with our Fearless Leader. However, at this month's Monthly Meeting, has been awarded to yours truly! At next month's monthly meeting, Goofy should be adorned with something appropriate to signify the importance of remembering to put the kick stand of your motorcycle down when getting off of it! Something I learned when I took my Motorcycle Safety Course !! Someone had to do it !*

Olga Wyman,  
Chapter I, Newsletter Editor

Goofy is awarded to one Chapter member who has done the goofiest thing since the last meeting. Goofy gets to spend the next month with that person. The person receiving Goofy must add or attach something that represents their "goofy" stunt.

This month Goofy went with our very own Chapter I Director, Don Cruzan for an incident involving a helmet strap....

Members, be on the look out for someone pulling a Goofy.
