#### -From the Director's Desk -

It's hard to believe that a year has already passed. We have had a great time working with everyone to make last year successful. Hopefully, we have learned some things to make 2017 an even better year. Really, the best thing about our Chapter-I is that so many folks jump in to make everything work so well. We greatly appreciate all the help and support from all of you! As always, please contact us if you have suggestions on how we can improve.

This time of the year is focussed on safety and knowledge...while still having fun with our friends. Earl has set up a couple great opportunities for training starting with MFA/CPR course on January 14th. We plan to be there, and I hope that we see you there as well. Next month, he has the Rider/Co-Rider training. As a rider, I found this course enlightening as much as Jacque. Plus this session includes the Motorist Awareness Seminar. I would recommend everyone that hasn't taken this course to sign up.

Finally, with the start of a new year, there is the urge to create a list of resolutions. I thought about my list from last year, and what I actually achieved. Apparently, I'm still working in a deficit against last year's resolutions. With that in mind, I think this year I will just resolve to Wing it!

Ride safe, and we will see you out there. Steve & Jacque Colorado Chapter I Directors

#### THOUGHTS FROM THE BACK SEAT

Steve and I have, FIVE, kids. We have two girls and three boys. As some of you may know, we were, foster mom and dad to all five of our children before they became, OFFICIALLY, ours.

One of our children was a fetal alcohol baby, and the other four were drug babies. Fetal alcohol kids are so smart that you can teach them anything and they have got it. However, the next day the slate is wiped clean, everything they learned the day before is gone. Drug babies go through drug withdrawal which is hard...break your heart hard. They have sensory issues, attachment issues and trouble learning.

Adopting our five children was the best, the most wonderful, the most fulfilling, the hardest thing we have ever done, but like anyone who has kids, we LOVE our kids endlessly, the good, the bad and the ugly!

When one of our sons was little, he grabbed my hand one morning as we were walking into church. He looked at me and said, "WE STICK together like glue, "cause", THAT'S, what families do! Right mama? Of course, I teared up, smiled, looked at him and said, "that's right son.."

May I make a public declaration to ALL of our kids, your dad and I, we're STICKING!

Last Saturday's very fun chapter meeting reinforced what I already know, in my heart, you all are family!

When Steve and I attended his Company Christmas party in December, we visited with everyone, had a nice meal and a good time. Later we both commented on how much more we looked forward to our Chapter-I Christmas party, which happened to be the following evening.

Let's face it, it is always way more fun to be with those you love and feel connected too... FAMILY! As we begin our second year as your chapter directors, I want to say, from both Steve and I, THANK YOU for ADOPTING us!

I know you have heard it before, but we truly, LOVE being part of you! Thank you so very much for, STICKING, with us.

Jacque Callicott Chapter I Director

# TRAINING, TRAINING, TRAINING

We all have done training at some point in our lives, whether it is military or civilian. We don't like it, but it is a necessity to stay proficient. I'm just not talking motorcycles, but everything that we do in life. Real estate, insurance, plumbing, electrical, cabling, woodworking, first responders, police, fire, nursing, computer industry and the list goes on and on. So, what does that do for me? This should keep you current in your field of work, or in this case, more proficient in riding a motorcycle.

Let me compare three guys that ride motorcycles. The first guy, I will call FNG, (Fairly New Guy). He has been riding a motorcycle for about 2-3 years. He won't ride in adverse weather. Why? He said he does not have the rain gear or feel comfortable riding in the rain. He also does not ride when the weather gets cold. No heated gear or warm gloves to ride. The next guy is yours truly, the author of this article. I will ride in the rain if I have to, but I don't enjoy it. I have years of experience riding in the rain. (Motorcycling is a water sport, really) I will ride when the weather is cool and you may need heated gloves. The next guy is Felix. He enjoys riding all year round. He has heated vest, gloves, heavy jacket, rain gear and gloves. He is prepared for all types of weather and he has experience in doing so and has rode for several years.

What does this have to do with training? Whatever you do in life...training sharpens your skills. Whether it is boating, skiing or motorcycling. If you prepare/train to ride in the rain or cold weather, you will feel more comfortable when the moment occurs. Now, do you have to ride in the rain or cold...**NO**.? I just used that as an **example** because a lot of riders don't ride in those conditions. The point being, training is training.

In athletic training we are taught that practice makes perfect. And when you practice something you enjoy doing, it's just a lot of fun! Practicing motorcycle riding maneuvers in a closed parking lot with someone else (the instructors) monitoring the range to protect the riders from outside hazards helps you focus your attention on the task at hand – becoming a better rider by sharpening your riding skill.

#### GOOFY

Goofy is awarded to one Chapter member who has done the goofiest thing since the last meeting. Goofy gets to spend the next month with that person. The person receiving Goofy must add or attach something that represents their "goofy" stunt.

Members, be on the look out for someone pulling a Goofy.
