~ From the Director's Desk ~

Can you believe it? May is really here at last. I can tell...because there are about 20 events already planned to keep us busy through the Summer and into the Fall.

Kicking things off this year, is the "semi-annual" camping at Royal Gorge KOA May 11-13. Then there is the "A Hoot in the Ute" Rally. We hope everyone will be able to attend this final Region rally to celebrate our region's legacy. There is also The Great Lunch Challenge next month after our Chapter meeting (June 2). We're expecting a huge showing of some of the greatest chefs in Chapter-I. Regardless, we all win by getting fed for free!!

I was also asked to let you know about the 9th Annual Riders for Moebius Poker Run. Kacie Nievesmassol put's on an annual Poker Run each year to raise awareness about her son's rare condition, Moebius Syndrome. Moebius Syndrome is a very rare disorder and their goal is to reach as many people as possible to raise awareness. They have been putting on an annual \$250 Poker Run for 9 years now. The ride will be on June 2nd @ 9:30 am starting at Pikes Peak Harley Davidson. This year, they will be riding up into the mountains to Florence, Penrose, Bishops Castle and ending in Colorado City for a big BBQ and raffle prizes. She would love it if your group could join us for a great cause!!! Obviously, this is during our Chapter meeting, but if you're looking for a break from our shenanigans, you might consider supporting this event. If you go, please let us know how it turns out.

Finally, Bryan and Emma as well as the District Staff made the hard decision to cancel this year's Colorado District Rally. I'm sure this will come as a disappointment to many of you as I'm sure it is for our District Staff. We applaud their fortitude to make this call, and now start focusing on next year's Rally. They will be reaching out to most of you to get your input to make next year's rally Great!! For the remainder of 2018, there are a number of rally opportunities starting with the already mentioned combined Region and Utah "A Hoot in the Ute" rally at the end of May. In addition, Missouri's rally is at the end of May, Wyoming's rally is end of June, Wing Ding 40 is the end of August and Arizona is the end of October. Get out and Rally!

Happy Mother's Day to all Chapter-I Mothers!!

We love being part of Chapter-I!!

See you on the road this year,
Steve & Jacque

Springs Wings

~ Thoughts from the Back Seat ~

Years ago, as Steve and I were headed home around 11:30 p.m. from our friends house, I being REALLY tired.....you guessed it, I fell asleep.

As we were moving down the road, going approximately 50 mph, the front tire on our motorcycle blew out, scary, very scary! As Steve struggled to keep our bike upright, while our bike desperately tried to lay down, I slept on.....

Steve would just get it upright and it would lean way to the left....he would again get it upright and it would lean way to the right. After much effort, Steve was not only able to keep our motorcycle upright but bring our bike safely to a complete stop!

I remember Steve, with his face inches from mine, adrenaline pumping, asking me, in a louder then normal voice, ARE YOU OKAY?? I remember feeling groggy but answering that I was fine. I also remember wondering why Steve was talking so loudly and having the sensation of making many sharp turns on that trip home 😊

We as the co-riders on our motorcycles play an important role.....Not only are we the extra set of eyes and ears, an extra voice and the extra set of arms as we are traveling down the road, but we also provide a perspective of the things around us that our rider does not see. We literally have the job of enabling our rider to have a 360 degree view.

I know that many of as co-riders not only trust our rider enough to fall asleep while moving down the road but feel completely comfortable and relaxed doing so. While falling asleep on our motorcycle is not a designated job we as co-riders have, that level of trust allows for both rider and co-rider to flow as one, ride as a cohesive unit, while on their bike.

I would say that in this particular instant, it was VERY, VERY, GOOD that I was comfortably asleep BEHIND the wheel 😊

As we all look forward to warmer days ahead, I hope that each of you are able to carve out special time each week to be OUTSIDE! May you have lots of opportunities to enjoy, be enriched and have LOADS of FUN doing ALL the things you love the best!

Riding in areas that suffered Natural Disasters

Something you may NOT have thought about...

We just returned from escaping the winter, Colorado never had, this season by traveling south to Rockport, Texas, for three months.

You may recall that last August Hurricane Harvey also visited Rockport, 4 months before we arrived. This town is on the Gulf Coast, about half an hour east of Corpus Christi, Texas. Rockport is a small town of about 11K population, with old downtown area, a block from the Gulf and a quaint Harbor.

Hurricane Harvey stayed just off the coast and sucked the water away from town revealing about a hundred yards of new shore line. Storm surge did not impact Rockport as much as it could have. What happened though is that Harvey spun up about 78 Tornadoes which ravished this area (see attached pictures)

Boat Barn ripped apart

Debris from homes
& businesses

In your travels, whether it is by Bike, Trike, Truck or car, something you probably never thought about, when passing through an area hit by a major storm, is what is on the road. Sure you see large trees, mattresses, roofs, overturned buildings, etc., are easy to see, but what about nails.

The Mayor in Rockport issued his own travel advisory: "Don't come here unless you have a spare tire." -- The roads were full of nails, many people suffered flat tires, and the tire shops and garages, to call for help, were closed because of the storm.

Not something I ever thought of, and Didi and I have traveled through Limon and other places on trips that were recent victims of Mother Nature's rough side.

Bottom line - I know that it is not recommended to use tire repair kits when you only have two tires, however, I think it's a good idea to keep such a kit in your travel bag in case of an emergency - it's better than being stranded. It's also a good idea to inspect the road surfaces!

MORAL OF THE STORY: When the roofs and walls come off so do the nails and many would land on the road.

Springs Wings Safety

MORE COLD COMING

Humans are not designed for cold-weather environment, so some of us need to factor more into the equations as we prepare for the winter months to come. Also keep this in mind as we ride our motorcycle in the cold weather. We need to prepare ourselves to stay warm. Believe it or not, more people suffer from dehydration during the winter months than the summer months. So in the summer months, when we feel hot we drink fluids and head to the shade or even into an air-conditioned room to cool ourselves down. During the winter, with the cool or cold weather, many of us just don't feel as thirsty as they do in the summer, even though they're losing just as much fluids.

Earl Edwards,
District Educator

dropping temperatures ...and thirst

Cold temperatures
can reduce the
body's thirst
sensation by up to

40%

Here are a few reasons why we dehydrate quicker in the cold:

1. Every time we breathe, we lose fluids. Ever notice the condensation escaping as you walk outside or simply when you breathe? That's water leaving your body. What about when you are shoveling those 6 feet of snow drifts that is left behind by the wind storm and you're soaked with sweat? That's also water leaving your body.
2. We don't drink enough water. Your work and lifestyle will dictate how much water you should drink. For example, it is recommended that, if you work a desk job, you should be drinking roughly 6 to 8 quarts of water per day. If your job is more physical, you should be drinking about 10 to 12 quarts per day.
3. We wear extra clothing. Heavy jackets, long underwear and other pieces of warm clothing help your body conserve heat, but the added weight and layers are factors that make the body work between 10 and 40 percent harder than when in light clothing. By working harder, the body produces more sweat, contributing to fluid loss. Notice that sweat evaporates more quickly in the cold (dry) air. We often think we aren't sweating in cold, dry weather because our perspiration tends to evaporate so quickly, and this is another factor that can contribute to a diminished thirst response. So it is best to layer your clothes and take them off as you get warm.

So for those of you that ride in the winter time, be mindful that you should stay hydrated while riding, and I'm not talking about alcoholic/caffeine beverages. Dehydration may be foremost in your mind in the hot months, but you still lose moisture in winter. Cold, dry winter air can suck moisture out of you and you may not notice that you're perspiring. So stay hydrated and have fun in the winter air.

Springs Wings

Oh What a Beautiful Day for a Ride!

By Claude and Nancy Lockhart - Chapter CO-I MEC

After the March meeting, Claude and Nancy wanted to ride on that beautiful day. What's a better way to ride??? With friends of course!

There were 7 bikes and 1 trike lined up in the church parking lot ready to go. Claude broke them up into two groups as per riding etiquette. Jim Wyman took lead with the first group of Olga, Mark Sullivan, and Maurice/Pam as tail gunner. Claude/Nancy took the lead for the 2nd group of Martin, Paul/Margie and Don/Jackie as tail gunner.

The first stop was Coyote Den in Penrose for brunch. After the wonderful food there some decided to head home. The Lockhart's, Martin, Maurice/Pam, and Paul/Margie decided it was too lovely of a day to call it quits so they headed to Bishop's Castle. It was Martin's first time there and he was amazed by the structure and did get a chance to talk to Jim Bishop a bit. Jim told Martin his wife is in the hospital with cancer and he himself is battling it as well. While up in the castle, Jim's voice rang out loud "God please just take me now...I am ready to go". He has worked his whole life building that castle that started out as a mountain cabin. He is still there working when he can and sitting around a campfire while tourist are checking out the grounds. He specifically built this for people to enjoy for free and he hopes that will continue after he is gone.

With the wind kicking up a bit, they all bid their farewells and decided to head home. Just being able to ride through the mountains once again was a thrill alone but to be able to ride with friends having fun and being safe makes it more special. That's what GWRRA is all about!

The Lockhart's do have some other rides planned like a Breakfast Ride and the annual Bridge Ride in June. In August they are planning an Overnight Mystery ride...where? Oooh that's the mystery!.....so stay tuned for announcements later in the meetings and newsletters.

Springs Wings

THE NEW 2018 GOLD WING TEST RIDE

By Earl Edwards

The new 2018 Gold Wing are at your local Honda dealership. I had the opportunity to test drive/ride a blue Gold Wing at Fay Myers on 24 March 2018. So after the training seminar, I put on my gear and met with Austin for a briefing on the operations of this fine machine. One of the biggest change that Austin pointed out was "NO CLUTCH". Say WHAT!!! Yes this model, DCT Honda's automatic Dual Clutch Transmission. With the DCT, you can shift the bike through paddle shifters on the handlebar. The motorcycle has selectable riding modes: Economy, Rain, Sport and Tour. Economy and Rain give you a softer ride, not as much power while the other two modes give you more power. He went through the radio function, electronic windshield, you can adjust the suspension on the motorcycle for single or double passenger with or without luggage. I'm still stuck on "NO CLUTCH". The motorcycle has a smaller trunk and saddlebag space and a smaller fuel tank. With all of my information, it is time to get on the road.

Before getting out on the main road, I went around the parking lot a few times to get used to the brakes and stopping without stalling. Feeling confident, I went out on the main road driving the machine in 'drive mode', which is automatic. The motorcycle was smooth. The new suspension was awesome. On the return route back to the shop, I switch back to manual mode. The shifting took a little to get used to, but with time anyone would get the hang of it. Braking without pulling in the clutch feels different. I like the passing high beam light, similar to a vehicle. I also like the keyless entry to the trunk, just push a button to open. No key for the ignition just a key fob, push button start. NICE. The new 2018 Gold Wing is rich with a lot of features and you can adjust it to your riding style and the road condition.

Until the next time... "Only cover the parts of your body you want to use for the rest of your life."

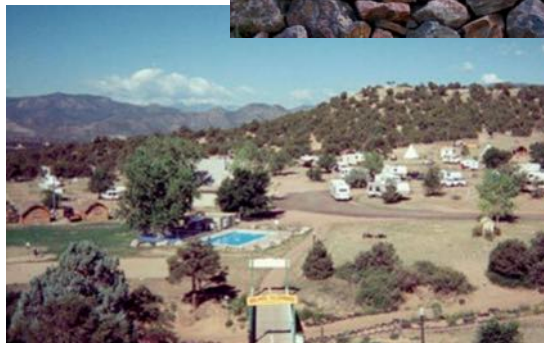

Springs Wings Events

Camping at Royal Gorge KOA May 11-13

If we stay on the north side of the campground and don't care about a patio, the fees are as in the past. First night's deposit if you are a KOA member is 44.88 with \$20 due for the second night upon arrival with no added taxes. I am staying in site 38, Dick and

Didi are in 45 and they will try to get the rest of you as close together as possible. I would call soon to make your reservations, they are starting to get busy.

The sites on the south side are now all redone and the price did go up \$20 a day, I'm okay with the sites up on the north end:). Please let me know when you make your reservations and what sites you are in and we will go from there.

There was a question about bikes, I know if the weather is good Dick and Didi are taking there's, so that's at least one. Can't wait to see ya'll there, I know it will be fun. Anybody have cornhole they want to bring or another game? Please feel free to do so.

Happy Camping,

Bonnie and Ken

Ballots collected at 11:30am
Award presented to Winner at end of tabulations.

5th ANNUAL WOMEN'S MOTORCYCLE RIDE

Sunday, June 10, 2018, 8:00 AM to 5:00 PM, hosted by Christine Howland

This year's ride will be to Steamboat Springs and a Gondola ride for lunch.

Meet at the Sunmart Gas Station, 18561 US Highway 40 # 502 · Golden, CO at 8 am.

This gas station is next to the Mammoth Hog Back Parking lot (the large lot at I-70 and Morrison Rd exit). From I-70, head North on Morrison Rd, Left at first light (US 40), follow road along parking lot to the Sunmart. Look for White Goldwing.

The route to Steamboat will be up US 40. If you live North of Metro Denver, you can meet us in Granby at the Kum-n-Go gas station, just South of US 34 on US 40, at about 10 am.

With lunch and the return trip the total trip will take all day (about 8 hours) and cover almost 350 miles. Cool weather clothing may be needed on the passes. Several stops are planned for fuel and stretching the legs. Bring the cameras! Seeing Moose and Mountain Sheep are possible. There will be a cost for lunch and the Gondola ride. As always, all riders are welcome!

Please RSVP so I can let the restaurant prepare. If you will be meeting us in Granby, please let me know. I can be reached at 303-725-0169 and gabngabby@aol.com.

Knoxville, Tennessee rolling out the red carpet!

Knoxville, home of GWRRA's 40th Annual Wing Ding, is situated at the foothills of Great Smoky Mountains National Park. Three Interstates run through Knoxville making it easily accessible! The majority of the events will take place downtown at the beautiful Knoxville Convention Center.

Many exciting changes are happening including a completely revamped event schedule with less structure and more fun! Both the association and the city are making some great plans for us! To register or view the event schedule, visit our newly redesigned website at www.wing-ding.org today!

Springs Wings Events

DISTRICT RALLY CANCELLED!

As District Directors, Emma and I feel strongly that part of our responsibility is to be good stewards of the resources we must work with. Everything we do as GWRRA leadership is to ensure we have a viable, long-term organization which caters to the needs of our members. We look for ways to enrich and enhance membership so that GWRRA is truly a place for friends, sharing fun times and knowledge. The Colorado District Rally has long been an opportunity for friends and members from all over to get together for some fun. Unfortunately, as we said in the newsletter, this year's registrations have been tracking far below normal. At this point, it does not make sense for us to continue moving forward with this year's rally. In order to be good stewards of the District's finances as well as the District Staff's time, we have made the difficult decision to cancel the 2018 rally. Those who have already registered will have their registration fees refunded and should be able to cancel hotel reservations without penalty. We will be sending out a Survey to try to determine if there is enough interest in moving forward with a rally in 2019.

We want to thank all of those who have given of their time over the past 5 months to help with the rally planning. We will continue to discuss options and rally alternatives to see if we can come up with an option that our members will enjoy without being a resource drain.

Thank you,
Bryan & Emma Lape

We would like to thank those in Chapter-I that invested their time working on this year's District Rally. Everyone in the Chapter very much appreciates all of you.

Also, we would like to thank Bryan, Emma and the rest of the district staff. We know that you worked very hard to make this a great rally, and in the end, we're sure this was a tough decision. We really appreciate our District's very strong and wise leadership.

Steve, Jacque and all our Chapter-I Staff

Springs Wings

3/23/61 - 4/20/18

For those who do not know, this was our Son-in Law, Misty's husband and Tyra's daddy, who we are very proud of. He fought a courageous battle with cancer but the cancer won. He did not have life insurance as he thought he wouldn't need it then when he realized he might need it, it was too late. He was our Superman but cancer was his Kryptonite. Please click on this website: <https://www.gofundme.com/funeralmed-expenses-for-cleveland> and if you can't help, we understand, but please post and forward this to other kind hearted souls you know.

Tyra, 15 yrs old, has 2 rare syndromes and will need both legs operated on within the next 6 months. Her knee-caps are way above where they should be and her knees swell daily. She is also developing calcium deposits and scar tissue in the heart valve once again and we are hoping that can wait another year. Misty has really had her hands full this year and I know she is really going to miss her Superman for love and support. His loving spirit, bright smile, tight hand shakes and big bear hug will be missed by everyone he has touched.

Our family fully appreciates your friendship, help, and blessing and that's what gets us all through these trying times. Love to you all! Claude and Nancy Lockhart, Misty and Tyra Young

April 26, 2018

It is with a sad heart to share that Shirley Hawkins from Chapter Q passed away last weekend, Shirley and her husband Terry, were the original Directors of Chapter Q and also served as Colorado District Directors. They were Life Members of GWRRA but were no longer active in the organization.

Please keep Terry and their family in your thoughts and prayers as they celebrate Shirley's life.

A celebration of life will be held on Saturday May 12th, 2018 at the Montrose Elks Lodge 801 S. Hillcrest Drive, Montrose CO. 81401 starting at 2 p.m. Crippin Funeral Home & Crematory in Montrose is assisting the family.
